School Vision and Mission

Our Vision:

C CC Kei Yuen College is a Christian grammar school founded by the Hong Kong Council of the Church of Christ in China (HKCCCC) in 1982. Inheriting the spirit of "Serving & Preaching through Schooling" from HKCCCC and following God's words, "Together we grow in Him", we endeavor to provide students with quality whole-person education.

We strive to establish a happy learning environment where students have all-round development in moral, intellectual, physical, social, aesthetic and spiritual aspects. We recognize and put special attention to students' individuality and provide them with abundant opportunities to develop their individual potential so that they can grow up into teenagers who treasure themselves, cherish others and love God.

我們的願景：

中 華基督教會基元中學是一所基督教文法中學，一九八二年由中華基督教會香港區會創辦。本校秉承區會「透過學校，傳道服務」的辦學精神，並以「凡事長進，連於元首基督」為宗旨，向學生提供全人教育。

本校的辦學理念是建立一個愉快有紀律的學習環境，使學生在德、智、體、群、美、靈各方面得到均衡的發展；並且關注學生的個別特質，提供更多機會讓他們發展個人潛能，以成為愛己、愛人、愛神的有為青年。

Principal's Message

校長的話

Welcome to CCC Kei Yuen College!

C CC Kei Yuen College is a Christian co-education grammar school, with English as the medium of instruction, founded by the Hong Kong Council of the Church of Christ in China (HKCCCC) in 1982.

Our school motto "We will in all things grow up into him who is the Head, that is, Christ" (Ephesians 4:15) and the name of our school: 'Kei' (Christ) and 'Yuen' (Head) (meaning "Christ is the Head") have been shaping our direction to follow Christ's model to strive for Excellence with a Soul and pursue Outstanding with a Heart in all things.

We have been establishing a happy learning environment embraced with "Love and Care" where students could grow in love and whole-person development could be fostered. Not only do we value academic performance and intellectual development, we also stress even more on values and attitudes as well as a perpetual tradition of physical and aesthetic excellence.

Kei Yuen students are nurtured to be self-regulated learners in a context that promotes extraordinary

learning experiences not confined to the classroom. Ubiquitous learning, via e-learning, has been enhanced with the use of technology in order to promote learning anytime and anywhere. Kei Yuen students also widen their horizons to the world by joining various service training and leadership development programs, as well as study tours to English-speaking countries.

High quality education creates abundant opportunities to cater for the diverse needs of our students in a changing world. We recognize and put special attention to students' individuality and develop their individual potential so that they could treasure themselves, cherish others and love God.

Our graduates are proud of being part of the Kei Yuen family. They understand their duty and have long been contributing to the Hong Kong community, mainland China and the world.

I look forward to welcoming you to the Kei Yuen family.

English Learning, Lifelong Benefits

英語學習 終身受用

English is an important international language that one must master. Mastering English can enhance students' academic learning and prepare them for future career development. Since the 2010/ 2011 academic year, English has been used as the medium of instruction for all classes in Form One in our school. This year, a total of 14 subjects are taught in English in junior forms, including English Language, Mathematics, Geography, Integrated Science, Physics, Chemistry, Biology, Computer Literacy, History, Visual Arts, Physical Education, Home Economics, Music and Design and Technology. In addition, our school has adopted different teaching and learning strategies to enrich the English learning environment.

In order to enhance students' speaking skills, all junior speaking classes are taught by a Native English Teacher (NET). Throughout the years, many activities like English morning assemblies, English Speaking Days, English Action Days and English variety shows have been organized. Furthermore, students are encouraged to participate in different English extra-curricular activities such as the English Speech Team, the English Debating Team, the English Drama and Movie-making Society, the Smart Writers Society and the Scrabble Society.

英語是國際語言，是學生升學及就業不可或缺的基石。為裝備學生，迎接未來的挑戰，本校特加強英語教學。由 2010 / 2011 年度開始，本校中一所有班別均使用英語為教學語言。本學年，初中級使用英語授課的科目共有 14 科，包括：英國語文、數學、地理、綜合科學、物理、化學、生物、電腦、歷史、視覺藝術、體育、家政、音樂及設計與科技。

為加強學生的英語會話能力，初中各班英語會話課均由外籍老師教授，另設英語早會、英語日、英語活動日及英語綜藝表演等。除此之外，本校更成立英語課外活動小組，例如英詩朗誦學會、英語演辯學會、英語話劇及攝錄組、英文小作家學會、英文拼字學會等，以營造良好的英語學習環境。

再者，本校著重多元學習經歷，為學生提供不同類型的英語學習活動，如英國、澳洲英語遊學團、加拿大英語學習文化交流營、美國英語學會英文暑期課程、英語話劇比賽及英語空中廣播等，以提升學生的英語能力，拓展國際視野。

Different people have different learning strategies that suit them most. For me, it's all about revising and consolidating what I have learnt daily, instead of cramming for exams without fully understanding the knowledge. Using graphic organizers, like concept maps, can help me visually see the connection between different topics or even across various subjects.

1D Kan Yui Ue

Striking a good balance between study and social life can be hard but it's really important. I personally created a timetable to help myself plan and prioritize the tasks I need to finish in daily life. As for my goals, one of them is that I will strive for further improvement in my academic studies whilst learning many different skills at the same time.

It is important to start your preparation early to enable you to embed what you have learnt from your short-term memory into your long-term memory. Always jot down anything you do not really understand and seek help from your teachers as soon as possible. Besides, using concept maps and making notes will help you visualize the topics and find the link between different concepts.

To strike a balance between study and rest, we need to prioritize our tasks. The best way to do this is to make a schedule. As such, we are able to know what needs to be done, and when it has to be done. Also, we must have self-control so that we do not get ourselves easily distracted. With the advancement of technology, we can surf the Internet anywhere. Since my mobile phone is a big distraction for me, I usually put my phone out of sight when studying. When I am in S.3, I want to strive for further improvement in my academic studies.

I would like to share my learning strategies and experience of my learning journey at CCC Kei Yuen College. Everyone has their goals in life, and we all want to achieve something, huge or small, no matter who we are. However, some may find the bigger picture too overwhelming in their learning journey. If you are one of those people, try to break your bigger goals down into smaller short-term goals. This separates long-term goals into smaller, more manageable steps so you don't get discouraged and quit.

Personally, working as a pilot has been my dream since I was small. To ensure I am on the right track to accomplishing my dream, I make sure that all the effort I am putting into my studies now will help me prepare myself for when I eventually study abroad in Australia. Life today is like walking on an escalator – you can either choose to go up or down. If you stand still, you will go down. If you put in a little effort, you will remain constant. To go up a step, you will need to put in some extra effort. As a perfectionist, I try my best to be perfect or flawless in my life, especially in the academic field. Not surprisingly, my attitude of striving for perfectionism has become a huge contributor to my personal stress, which drained me of energy and increased my anxiety. Therefore, know your limits, whilst recognising that you must put in 100% effort to receive 100% rewards.

3B Hui Long Wai

A huge thanks must go to my family and teachers, who were always there to support me when I was down in the dumps. What I learnt in these three years is that "the greatest test of courage on earth is to bear defeat without losing heart".

I want to be a dentist after I graduate, so I am planning to study the relevant subjects in my future university. Helping people to become better and healthier has always been something meaningful to me. Dreams will never come true without hard work. No matter what difficulties I come across, I will never give up, as my determination is strong. In order to achieve good results and enroll in my dream university programme, having good learning strategies is necessary. When we are doing revision, we need to understand and digest what we have learnt after finishing the lessons in school, instead of relying merely on rote memorization. Although it may be hard for most of us to study efficiently under the epidemic situation, we should try our best to reach our goals. If you want to do something, never wait for tomorrow. Let's do it now, as chances are created by ourselves.

Unlike other high-achievers who might want to become a doctor or a lawyer, I would like to study Quantitative Finance at the University of Hong Kong and work as an I-Banker in the future.

You may be under the impression that striving for academic excellence is a seemingly insurmountable hurdle. Yet, it was not until I became persistent that I found my learning direction and strategies. In fact, you need to not only work hard, but also work smart, which means you should utilize your learning resources effectively and approach your teachers as well as your peers. If you are able to possess such qualities, it is foreseeable that you can achieve success in the future.

Apart from working hard and smart, it is also important to have plenty of rest. As cliché as it may sound, taking a break is for accomplishing a longer journey!

Serve our community, Show our Love and Care

服務社區 盡顯關愛

We aim to touch the hearts of students with our love and care; in turn they touch the hearts of many more in our community with the talents and virtues they develop during their secondary school life.

Every year, students in all forms need to participate in at least one volunteer service. Examples include: beach cleaning, nursing home visits, Flag Days and being an Elder Academy Tutor.

1. One Student, One Service

- All students need to participate in at least one Volunteer Service in each form.
 - S.1: Conservation Services – cleaning beaches and country parks
 - S.2: Caring Services – serving the elderly
 - S.3: Experiential Services – Community Experience Day
 - S.4: Community Services – Flag Day
 - S.5: School Services – student leaders, house committee members, Elder Academy tutors.

本校重視學生的品德教育，鼓勵學生多參與服務，貢獻社區，承傳關愛精神。每年，不同級別的學生須參與最少一項服務活動，如清潔沙灘、探訪老人院、賣旗活動、擔任基元長者學苑導師等。我們期望學生能夠成為才德兼備的「基元人」。

1. 一人一服務

- 所有學生必須參加與「服務」有關的指定活動：

中一：保育服務——清潔沙灘／郊野公園

中二：關顧服務——關顧長者

中三：體驗服務——社區體驗日

中四：社區服務——賣旗活動

Nurturing New Students, Caring for Development 支援新生 關注成長

It is common to see the Form One students feeling anxious when facing a new environment. In view of that, our school holds plenty of activities to help them adapt to secondary school life. Below are the key measures taken to create a caring and supportive campus.

- English Learning:** In order to create a rich English language environment, our school has placed considerable emphasis on learning English inside and outside our classrooms, like compiling a useful vocabulary handbook "Word Power" for students' self-study. Throughout the years, a wide range of activities have been held to cater for learner diversity, such as the Summer Bridging Programme, workshops on learning strategies and learning skills, an oral English and Language Arts course organized by the NET, Enhancement and Remedial Courses and the Saturday English, Mathematics and Science Enhancement Programme.
- Social Development:** In the S.1 Bridging Course during summer vacation, prefects and the student leaders of "Big Brothers, Big Sisters Scheme" help Form One students adapt to their new secondary school life. Also, a regular sharing session among fellow students is held during lunch time to help alleviate academic stress, and build up mutual trust and acceptance with their peers.
- Home-School Cooperation:** To strengthen co-operation and collaboration with parents, professionals have been invited to give talks on S.1 Parents' Day to help parents to have better communication with their children. Also, the "Dual Class Teacher System" is adopted to maximize the care and support provided for Form One students.

踏 入中學校園，中一新生面對陌生的學習環境難免感到徬徨不安。為了讓學生更易融入校園新生活，本校特別安排以下的配套措施，支援中一新生。

- 照顧學生的英語學習：**編印各科英文生字自學手冊，供學生參考。開辦暑假銜接課程、中一學習策略／學習技巧工作坊、中一英文口語班（外籍英語教師教授）、中一資優／拔尖／補底課程等，並推行周六英文、數學提升計劃，協助學生面對不同的學習需要。
- 關注社交發展：**暑假期間舉辦中一暑期銜接課程，由領袖生及「大哥哥大姐姐計劃」的學生領袖帶領活動，讓新生互相認識，從而建立友誼。並於開學後舉辦午間分享環節，由「大哥哥大姐姐」與中一同學分享及交流生活感受。
- 加強家校合作：**於中一家長日邀請專業人士到校分享，讓家長了解與子女相處之道。本校亦實施「雙班主任制」，以加強對學生的支援和照顧。我們深信「好的開始是成功的一半」，擁有愉快的中一校園生活經歷，有助同學更投入校園生活，發揮潛能，從而愉快地成長。

Winner of the Student of the year 2020 - Visual Artist

I am more than honoured to receive this award. First of all, I would like to take this opportunity to thank the South China Morning Post and the Hong Kong Jockey Club, who provided scholarships in order to support talented students, and the judges, who appreciated my artwork.

Creating and designing art is never easy. While others think successful artists/designers are born with "natural talent", in reality the artists are practising or making useful mistakes in the meanwhile. They, including me, have created repulsive pieces before. Some of my previous artwork was horrible, but they were stepping stones to greatness.

The major life experience I learnt during VA lessons was that Art reflects societies, and great iconic designs bring beneficial impact to the future. My VA teacher, Miss Chu, taught me that drawing exquisitely in the design is never enough, but the idea behind it makes a world of difference. I wish I could be a great artist/ designer who impacts and improves people's lives. A long way is ahead of me and it excites me.

The advice I can give to the young VA artists studying VA at CCCKYC is: always stay true to yourself and never underestimate your power. Being truthful and accepting of the mistakes that you have made are the ways to improve your art career.

Lastly, a special thanks must extend to Mr Wa, who guided me while making my significant installation "The Monsters", and Miss Chu, who constantly inspires me. I wouldn't have made major achievements without their help.

Sharing by **HKDSE** **Outstanding Student 2021**

My six-year journey in CCC Kei Yuen College has finally drawn to its close. Doubtlessly, it was never an easy or smooth path. There were times when I found myself feeling lost and discouraged by those challenges. Fortunately, I have built relationships with numerous teachers and peers who have always been very caring and supportive. They always stood by me and illuminated the way ahead whenever I was in need. They have left deep unfadable footprints in my glamorous memories. Therefore, I would like to express my sincere gratitude towards them for their continuous support throughout these years.

Striving for excellence can be a great ordeal with countless stumbling blocks on the path. Many of you may feel

miserable and exhausted after lengthy lectures and tutorial classes, not to mention the exams or tests afterwards. As a person who is honored as an outstanding student in the academic aspect, my most sincere advice is that you should never force yourself too hard to strive for excellent grades or results. This can bring dire consequences or may even backfire. Sorrow, depression and anxiety can come all of a sudden, and they may dominate or even ruin your mind. Therefore, maintaining a balanced lifestyle is of paramount importance to keep yourself mentally healthy and make yourself more energized and determined towards your target.

I strongly recommend that you step out of your comfort zone and experience different things. You can definitely broaden your horizons and expand your social circles. Remember that interpersonal relationships and the development of hobbies are equally important. I hope all of you can enjoy a fruitful and distinctive journey here in Kei Yuen College and accomplish your dream!
