Secondary School and Tertiary Institution Taekwondo Competition

I am honored to share my experience from my recent Taekwondo competition. While competing, I constantly reminded myself that I was representing not just myself, but also my school. This motivated me to give my best effort.

Before the competition, I was concerned about meeting the strict weight requirements. If I was overweight, I would not be allowed to participate. Monitoring my food intake was challenging because I love eating, but I managed. Also, I had to train rigorously since Taekwondo is a combat sport that involves punching and kicking techniques, and constant practice is crucial. Although the training was tough, I never considered giving up.

I was thrilled when I found out I had made it to the final match. However, my opponent was a head taller than me, and I felt worried and scared. I kept reminding myself to stay calm and try my best. By the end of the round, we were both exhausted, and our scores were very close. In the last 10 seconds, I mustered all my strength and delivered a powerful kick that nearly caused her to fall. Finally, the referee announced that I was the winner. "I did it!" I screamed loudly. I hugged my coach as tears of joy rolled down my face. Achieving this dream goal had been a long and challenging journey.

I would like to express my deepest gratitude to my coaches. Without their coaching and advice, I would not have been able to win this competition. I also want to thank my teacher and family for their continuous support and encouragement. Winning this competition is just the beginning. I will continue practising Taekwondo and hope to win more competitions for my school.

Practising and learning Taekwondo has increased my self-confidence and self-esteem. In Taekwondo lessons, I learn self-control, self-discipline, perseverance and most importantly, respect for others. It has taught me the importance of not giving up, no matter what obstacles we face in life. I will continue to work hard and pursue greater achievements in Taekwondo, making my school and family proud.

76th Hong Kong Schools Music Festival Grade Six piano solo competition

I am very honored to recount the remarkable journey that led me to become the champion of the Grade Six piano solo competition. Frankly, I did not anticipate achieving victory in this fiercely contested event, and for that reason, I am extremely grateful for my piano teacher Jeffery, my supportive loved ones, and the precious opportunity provided by my school. Without their encouragement, I would not have evolved into the person I am today.

I was 11 years old when I first touched the piano keys on the piano. My music teacher encouraged us to choose an instrument to play to develop a sense of harmony. To be honest, I really enjoyed playing the piano, as it proved to be the perfect way to express my feelings and emotions. However, trying to strike a harmonious balance between my academics and my musical passion was definitely difficult. Despite my efforts to hone my skills, my mother, concerned about the impact of my musical pursuits on my academic performance, implored me to withdraw from my piano lessons.

Two years later, while in the midst of my fourth year of secondary school, I found myself captivated by the graceful melodies from the masterful performance of the famous pianist Lang Lang on TV. In that enchanting moment, my deep love for the piano was rekindled. Determined to play the piano again, I began to practice nonstop. I discovered that I had forgotten several vital techniques, including pedaling. To regain my skills, I started with a relatively simpler composition: the first movement of Beethoven's Moonlight Sonata. Although it seemed simple, it took a staggering eight months of practice before I could successfully play the entire piece.

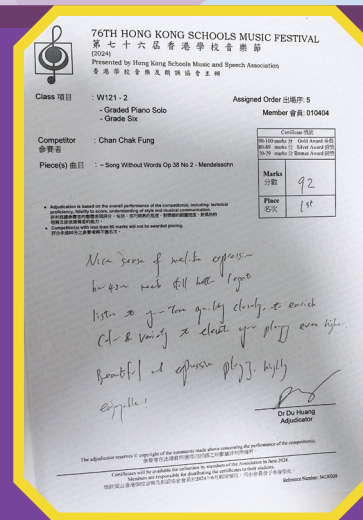

I also gained a new skill: playing expressively with emotions. In the past, I simply followed the notes on the sheet without considering how to make playing the music enjoyable. I discovered that the most important thing is understanding the true meaning of the piece. If I wanted to play even better than I did in primary school, I had to approach the piano differently. I found that between the black and white keys lay a colourful emotional world. I played the piece countless times with varying loudness and speed to find the best way to convey my emotions. After this

piece, I chose numerous compositions like Nocturne and Suffocation to practice. Initially, I chose them for their melodious qualities, but each helped me to correct my weaknesses. My practice became quicker and more effective.

When my music teacher Miss Cheung sought participants for the Hong Kong Schools Music Festival, I seized the opportunity to prove that I had made progress in my piano skills. Yet, the process was not easy. I encountered countless obstacles, including memorizing the piece and conveying its emotions to listeners. So, I practiced hard from day to night in order to achieve my best.

Throughout this transformative journey, I learned to never give up and to have faith in myself. "Nothing is easy, but everything is possible." Today, as I bask in the glory of my triumph, I stand as a testament to the indomitable spirit that resides within each of us, waiting to be awakened.

5D Chan Chak Fung

第七十五屆香港學校朗誦節——普通話詩詞獨誦（中學三、四年級女子組——冠軍）

很高興跟大家分享我在普通話朗誦的學習歷程。相信大家對朗誦也有了一定的認識，但是朗誦並不是表面看得那麼容易，想要展示一次聲情並茂的朗誦，背後其實要花不少的心思。

在收到自己即將要表演的誦材時，我需要花不少的時間尋找這篇詩詞的寫作背景及內容大意，了解作者為何會寫出這一篇詩詞，從而理解作者當時的心境。這樣我們在朗誦時才能更投入，將作者想要表達的情感，清晰而又生動的在觀眾眼前展現。在每一次拿到不一樣的詩詞，了解到不一樣的背景或故事後，我都會覺得朗誦其實很有意思，因為朗誦會讓我拉近與作者的距離，甚或仿如置身同一個境地。

基本了解背景後，我們還需要對朗誦的技巧進行雕琢，在朗誦中情感、聲調、語氣、停頓、手部動作、眼神、甚至表情管理都需要一一調整，可見朗誦並不是如此簡單。每一個細節都需要精心修正，在一次又一次的重複練習當中不斷進步，盡可能的將作者當時所看到的情境以或心中所想的向觀眾展現。

今年已經是我參加朗誦的第四年，在這四年期間不斷的練習並累積經驗，以及掌握技巧熟練度，讓我有幸在今年榮獲冠軍，在往後的日子我也會努力練習朗誦技巧，期望下一年爭取更好成績。

在此期間我很想感謝朗誦教練，他用專業及豐富的朗誦知識，教導了我很多有用的朗誦技巧，同時我也很感謝與我一同參加朗誦的隊友們，因為有他們的陪伴，我才會覺得不孤單。

總的來說，朗誦是我的中學生涯中最感興趣的愛好，因為練習朗誦讓我更有自信站在舞台上，在群眾面前侃侃而談。期望大家也能在學習生涯中找到自己的興趣。

「公民責任共承擔 團結同行建未來」專題活動之「What's App 貼圖設計比賽」 及「Snapshot 快拍攝影比賽」(2023-2024)

Recently, we participated in a WhatsApp sticker design competition themed around citizen responsibility and unity for a better future.

Taking part in this sticker competition had a profound impact on us. It helped us understand the importance of being responsible citizens and the role each of us plays in our community. We realised it is our duty to contribute to and protect it, paving the way towards a future filled with unity and love.

Participating in this competition was not just about creating a beautiful sticker; it was about spreading a sense of community and responsibility among those in our community. It was about making a difference through these simple acts to raise awareness. We are truly grateful for the opportunity to contribute to our society, aiming to create a more harmonious and united community.

4D Kan Yui Ue (1st Runner Up)

The Hong Kong Secondary School Distinguished Artwork Exhibition

This is our first time participating in the Hong Kong Secondary School Distinguished Artwork Exhibition, organised by City University of Hong Kong. Among the themes of the competition, we both chose the theme "Below the Lion Rock".

"Below the Lion Rock" represents the fighting spirit of Hong Kong people. It shows that Hong Kong citizens are not afraid of difficulties, moving forward courageously and passionately despite the many obstacles in our way.

Our artworks both include items with Hong Kong characteristics, such as trams, bauhinia flowers, lanterns and so much more. The crowd of people in our artworks reflect the prosperity of Hong Kong and the strong fighting spirit of the people. One of us

used a red, white and blue colour scheme, while the other one of us used a red, green and blue colour scheme, both of which showcase Hong Kong and its rich culture, capturing Hong Kong to its fullest.

We were both filled with satisfaction after completing our artworks. Winning a prize in the competition came as a welcome surprise to the both of us. This unforgettable experience became a great encouragement to us in our art journey. We are both immensely grateful for this wonderful opportunity and hope to participate in more competitions like this in the future.

The CAN (Clean Air Network) Activity

On the 23rd of November, my classmates and I participated in the Clean Air Network (CAN) activity that aimed to enhance our air quality literacy, problem-solving capabilities, and deepen our understanding of air pollution.

I was delighted to hear scholars from various universities address the challenges of climate change on urban streets and the human activities that exacerbate environmental issues. We also attached tubes to poles on Yau San Street to measure nitrogen dioxide levels, giving us insights into the air quality of the street. Seeing the tubes actively collecting data was a stark reminder of the invisible threats present in our everyday environment.

The subsequent phase of designing solutions to improve air quality in the city was a creative challenge that pushed me to think outside the box. It required a holistic approach, considering not only technological advancements but also integrating social and urban planning aspects crucial for sustainable change.

Through this competition, I learned that

individual actions, no matter how small, have the potential to improve the air quality and, consequently, the lives of citizens. The experience has left me with a deep sense of responsibility, reinforcing the need for efforts to enhance air quality around us.

4D Sarki Ranjana

"Love the Community" Coloring Competition Awards Ceremony

We are honored to have hosted the Parent-Child Coloring Competition Awards Ceremony. This year's theme focused on environmental protection. During this joyful and heartfelt ceremony, we witnessed parents and children expressing their love and concern for the environment through colorful and creative strokes. The smiles on the children's faces as they were recognized and praised for their brilliant pieces were unforgettable.

Each participant poured dedication into their artwork, whether through delicate brush strokes or bold colors. Every piece was filled with love and passion, showcasing the brilliant minds of the children who think outside the box. Their artworks not only demonstrated their

concern for environmental issues but also helped spread awareness about protecting our Earth, aiming to create a greener and better community for all of us.

Finally, we would like to extend our heartfelt thanks to all the families and audience members who participated in this contest. This meaningful and joyful event would not have been possible without their involvement. We hope this competition will continue for years to come.

4D Kan Yui Ue

KEI YUEN ELDER ACADEMY

Have you ever imagined being taught by someone much older than you? It wasn't something I had ever thought about, but it happened to me recently. I joined a community service group this year because I felt like I hadn't done enough to help society, and I saw this as an opportunity to make a meaningful difference.

The event I attended turned out to be a memorable one, starting with an unexpected activity where the elderly taught us how to play "Mölkky." This game involves thirteen wooden pins, each with a number except for one. The goal is to knock down the pins to reach an exact score of fifty. It was a unique experience to be taught by older folks, and I found the game quite interesting.

The second event was even more re-

warding. I was chosen to be one of the speakers. My partners and I prepared several simple and useful apps to teach the elderly who are not familiar with using smartphones. It was an honor for me to help them learn something new, especially given that older people often struggle with technology, which can create a communication gap with their loved ones. I feel that it's important to bridge this gap and help them stay connected.

Helping the elderly is not difficult, but often we don't take the time to do it. One of the biggest challenges is our own reluctance to help. Indeed, I am truly grateful to have had the chance to make a difference and to be given this opportunity by my school and teachers.

4C Sun Kai Kiu

Gospel Week

There is a sense of overwhelming fulfilment and joy that came with selling charity cookies today at school. Knowing that every box of cookies sold is contributing to a worthy cause creates a sense of empowerment and purpose.

Everyone wanting to buy a delicious crunchy butter cookie, that also comes with very cute packaging of Snoopy, makes my heart warm, as students would give their money to those in need. I think it's a win-win situation, as our schoolmates get scrumptious treats, and we can donate to charity. We are also

very thankful to our teachers because they helped buy some cookies too! Seeing everyone partake in delicious treats gives me a feeling of gratitude. We're most grateful to our principal, Dr Cheng. The principal's generosity means a lot to us and the charity we're supporting, and his willingness to contribute is very meaningful and inspires all of us. Thank you, Dr Cheng for being an exemplary role model by your ongoing support to the cookie sellers. Selling charity cookies leaves a lasting sense of contentment and satisfaction that is truly unmatched, even though it's hard work to stand and sell, but to me, every sweat is worth it, and I would love to join charity cookie selling again in the upcoming year.

2D Li Tsz Yu, Cora

Our classmates had a great experience with this year's community service program. They learned a lot from interacting with the elderly, whether it was in the Finnish chess class, where our students bravely communicated with seniors for the first time, or in the IT class, where our classmates patiently taught the elderly how to download and use online apps, including ordering food. Through these experiences, our classmates improved their communication skills and developed a better understanding of how to interact with the elderly.

In return, our group of students also benefited from our elderly friends. For instance, in one of the activities, our program introduced how to use a 3D printing pen, which was a new and exciting technology for both the students and the elderly. This not only introduced the elderly to a new skill but also sparked our classmates' interest in 3D printing technology.

I feel privileged to have the opportunity to help our elderly friends learn something new. This activity

made me realize that the elderly are friendly and easy to approach. We often fail to reach out to them proactively, leading to misunderstandings.

I hope that in the future, everyone will make a change and spend more time with the elderly because they are no different from us. They are also enthusiastic about learning new things and sometimes show their adorable side. Remember to talk more with the elderly friends around you!

4D Chan Chun Tsung

Easter Egg Hunt Game

It was my pleasure to have this opportunity to take part in the Easter Egg Hunt Game at our school. I was responsible for hiding eggs in various corners of the school, while other helpers provided participants with hints about the approximate locations, such as Staff Room A and Design & Technology Room. It was fascinating to find the perfect spots to hide the eggs, ensuring they were challenging yet feasible to find.

Once the participants found the eggs, they returned to start their search for the assigned Bible verses within the Bible. At times, they encountered difficulty in

locating the verses, and we were there to assist them. Everyone was deeply engaged in the game!

Throughout the event, our knowledge of God's words and promises grew, feeling a stronger connection with Him. Additionally, I noticed a significant uplift in the spirits of the students who joined the game, which seemed to alleviate their stress and despondency. This reaffirmed the meaningfulness of my efforts. I am eagerly looking forward to organizing and participating in similar events in the future!

4C Tam Man Tan

S2 Geography Field Trip to Mai Po Nature Reserve

- Wetland Reserve Officer

The Mai Po Nature Reserve Field Trip on 31st January 2024 was a meaningful experience that deepened my knowledge of nature. Through this trip, I was able to learn many interesting things that are outside our school curriculum, such as the 6 types of wetlands that can be found in Mai Po. They are gei wai, reed-bed, freshwater ponds, mangroves, mudflats, and fishponds. They provide habitats and staging sites for numerous types of birds. I also learned the two types of vegetation management, which are manual or machinery grass cutting and buffalo grazing. They are carried out in Mai Po to eliminate the unwanted vegetation. To me, the manual grass-cutting experience was an unforgettable memory that is deeply engraved into my heart. I used all my might to pull the pale, unwanted grass and was astonished to find out how tough it was.

Although the field trip was only about 3 hours, I was still able to grasp a good deal of new knowledge. I also had a blast with my classmates, especially during the manual grass cutting.

2A Gurung Suzane

The Kei Yuen Softball Team

Hello, everyone. I am Delson from 1B. I'd like to introduce you to our school's softball team. I first learnt about softball during the summer course in Form One. The speed and excitement of the game really fascinated me, so I decided to join the team.

The Kei Yuen softball team was established in 2021. Our coach, Mr. Ma, is an alumnus of our school. We have training sessions every Saturday on our school's spacious playground, which is perfect for the sport. Our school is well-equipped with all the necessary softball gear, including bats, helmets, gloves, and masks.

Joining our softball team is a great way to improve your batting skills and reaction times. In 2024, our softball team participated in its first competition, the U15 Softball Age Competition. It was an eye-opening experience where I witnessed incredible teamwork, energy, and dedication. It had a profound impact on me.

I hope more people will join us and help spread the love and teamwork of softball. If you're interested, please contact our captain, Wong Lok Hei from 2D. I look forward to seeing you on the Kei Yuen softball team!

IB Chan Siu Kwan

Big Brothers and

On the 26th of February, I went on a BBBS camp, and this was my first time camping with F.1s. For me, it was totally a brand-new experience and a great chance to learn how to take care of others and more.

In this camp, I participated in various activities, for example, orientation, blind searching, and many mini games played as a team.

Among all the games I played, my favourite is the blind-orientation because I learnt the most from this. The game is divided into parts. While only two people per part can remove their eyeshade to lead the team, the whole team needs to complete the journey by following instructions given by the tutor. Through the game, I learnt the importance of teamwork, trust, and communication, which is indispensable when you work as a team. With trust, teamwork and communication, it increases the team's efficiency, productivity and enables better problem-solving as well. They bring people together and it motivates each teammate to rely on one another so as to get things done.

Another thing I like about this camp is the debriefing(s) after each activity. It may seem to be boring, but actually it was not. In my opinion, this is the best chance to discuss what we could have done better and what we could learn from each other's strength, and this is also a thing we should do more in our daily life so that we can improve ourselves more. That's what I've learnt from the camp.

To conclude, this is a fun and inspiring camp. It inspires me to reflect on my shortcomings, and ways to improve and overcome them. I'll never forget this camp experience as it taught me a lot, and I hope I can have more chances to join similar activities.

2C Tong Yu Hin Marcus

The BBBS camp was a very interesting experience for me. It was a great opportunity to bond with my classmates and make new friends outside my grade. Although I was hesitant at first, I slowly began to enjoy the games and activities at the camp.

The most memorable event for me was the rope-walking event. From that event, I understood the importance of teamwork, and how important it is that everyone plays their role in a team effort. Walking on the rope was also really exciting and scary at the same time. Even though I tripped on the way down and couldn't participate in most of the event, it was the one that stuck with me the most.

Not only that, but the camp also gave me an opportunity to get to know my friends better. The blindfold event meant I had to put all of my trust into my companions, and they had to do the same when they were blindfolded. Overall, it was a huge test of trust, and I really learnt the real meaning of trust from that activity.

In conclusion, I think the BBBS camp was a fun and memorable event, and I'm super excited to see what else the BBBS committee has in store for future endeavors.

ID Wong Wan Yin Vania

Big Sisters (BBBS) Activity

Hello, I am Leung Sum Yin from class 3B, and I am also the vice chairperson of BBBS. On February 20, some of our BBBS members went to Breakthrough Youth Village in Sha Tin to have a day camp. The purpose of this day camp was to let the BBBS members get along with the Form 1 students and get to know each other better. So, we got into groups and had some team-building games. We all had a lot of fun there, and we did get along with each other! My most memorable experience on that day was that we were having team training where we needed to hold on a big round rope and pull it from different directions to let the rope become stable. It sounds easy, right? However, it is very physically demanding; anyone who pulls the rope will become unstable, so it's really challenging. After a couple of attempts, we finally got the rope stable, and while we were thinking that we have finally finished the mission, our coach told us we need to walk on top of the rope. Luckily, after many attempts, we did it! From this game, we have realized that we are a team and that we need to trust each other in any situation. At last, this day camp was really a memorable and meaningful experience. We all achieved the purpose that I mentioned at the beginning of this passage.

3B Leung Sum Yin

This year's BBBS camp can be summed up in one sentence - it was very rewarding. With the experience from last year, I already knew that this camp would be wonderful, and the result was better than expected.

Like I mentioned, I learned a lot from camp. For example, one of the games requires communicating with team members to solve problems. This game allowed us to see things from other people's perspectives. The most impressive activity for me that day was making a circle in mid-air with a rope and having a person walk on it. Yes, it sounds very exciting and dangerous, and some might even think it's impossible. This was also my first reaction. However, after experiencing it personally, although it was hard and tiring, everyone found it fun and fulfilling. In this game, I realized that the power of a group is stronger than I imagined and learnt the spirit of "impossible is nothing". As a senior form student who led and accompanied the Form One students throughout this camp, I also gained many happy memories from this activity. That, to me, was the best part of this camp.

5A Okonkwo Chinwa

New English Language Teacher at CCCKYC -

Ms. Tsang Cheuk Kwan

Greetings, everyone! I'm Ms. Tsang Cheuk Kwan. You may call me Ms. Tsang or Ms. Yev. It's a pleasure to meet you all and return to my alma mater as an English Teacher. Back in the old days, I was the Vice-captain of the Green House, the Vice-chairperson of the English Debate Team, and part of the announcement team of the Kei Yuen Leadership Programme. My advice to you all is to seize every opportunity to try new things and make the most of your school life. Giving it a try would do you no harm in exploring your interest and even your future prospects.

This year, I'm the class teacher of Class 3D and the guidance teacher for the form. You'll usually see me around the 3rd floor. Feel free to approach me if you need someone to talk to.

I enjoy reading, travelling and café-hopping in my leisure time. Sometimes, I do yoga to stretch and unwind from the hustle and bustle of life.

"A teacher affects eternity; he/she can never tell where his/her influence stops." I'm grateful to all my teachers, and I hope I can pass on their positive influence to you. Can't wait to get to know you all more soon!

New Junior Science and Biology Teacher at CCCKYC -

Ms. Wong Wai Sum, Ady

Hello everyone! I am Miss Ady Wong, the new Integrated Science and Biology teacher.

Thank you for your politeness and kindness. I enjoy having lessons and discussing biological issues with you all. Whenever we have discussions, I can see learning happens among us. It's the most satisfying moment for me as a teacher.

'Unless You Try To Do Something Beyond What You Have Already Mastered, You Will Never Grow.'

To improve my poor map reading skills, I plan to learn driving in April so that I can take my family to explore more beautiful places in Hong Kong. It's not easy for me, but I see this as a valuable opportunity to grow.

Learning is a life journey. I hope we can learn and grow together at KYC!

New Mathematics Teacher at CCCKYC ***- Mr. Au Chi Yan***

Hello everyone! I am Mr. Au Chi Yan. I am happy to join the KY family this academic year. I am a Mathematics teacher and the form teacher of Class 1C this year.

I enjoy travelling in my leisure time. Travelling around the world broadens my horizons and gives me a chance to understand different cultures.

It is my pleasure to take part in your secondary school life, and I am looking forward to getting to know all of you better. Don't hesitate to come and talk to me to share your joys or any problems you encounter in learning. I am always ready to listen.

New Chinese Language Teacher at CCCKYC - ***Ms. Wan Po Yan, Agnes***

Hello all Keiyuenese! I am thrilled to introduce myself as a new teacher. My name is Ms. Wan Po Yan, Agnes, and I am the class teacher of 1B. Also, I am teaching Form 1 and Form 4 Chinese Language. I am delighted to have the opportunity to join the KY family in this exciting chapter of my career.

Teaching has always been my passion, and I am dedicated to creating an engaging and inclusive learning environment where each student can flourish. Together, let us embark on an exciting educational journey filled with exploration, discovery, and endless possibilities. I believe that education is the key to unlocking your potential and empowering you to reach great heights.

In my leisure time, I enjoy traveling and café hopping. Like many other students, I am also a fan of Korean culture. I have explored its music, dramas, and language. I even know a little bit of Korean!

I look forward to getting to know each of you and working together to make this a remarkable school year.

New Chinese Language Teacher (NCS) at CCCKYC ***- Ms. Yang Hoi Lun, Helen***

Hello everyone! I am Ms. Yang Hoi Lun, Helen. I am so excited to be your teacher at Kei Yuen. The students here are energetic, creative, and enthusiastic. In this school year, I am glad to have the opportunity to teach Chinese Language alongside a team of experienced teachers. In my leisure time, I enjoy reading and exercising.

I am also a music lover. I am passionate about reading Chinese fiction books and those about personal growth, motivation, and self-improvement. My favourite pastime is listening to music, preferably Cantonese pop music. In recent years, I have been a great fan of Panther Chan. Additionally, I am a gym-goer and enjoy both badminton and jogging.

I enjoy interacting with young minds. Feel free to chat with me about Chinese language, music, and sports. I look forward to sharing the fun of learning Chinese with you.

中四級公民與社會發展科 內地考察（參觀珠海）
